## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-17 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-17 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 4 wherein the phase-locked loop comprises an offset resistor (54) coupled between the primary VCO input (N2) and a second input to the op amp (50); a digital-to-analog converter (52) receiving a digital value, for generating a DAC current as a function of the digital value, the DAC current being driven through the offset resistor (54); and a coupling switch (64) between the secondary VCO (46) and the primary phase comparator (32), for coupling the secondary output clock (L2\_CLK) to the primary feedback clock after the DAC generates the DAC current to offset a voltage of the primary VCO input in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
